

Adapted Cycles

We have two adapted cycles on site that can be hired free of charge by visitors to the park.

The Draisin Loader

This bike allows the wheelchair to be positioned on the platform of the bike and secured in place. The combined weight limit of rider, passenger and wheelchair should not exceed 230kg / 36 stone

The Draisin Plus

This bike requires the disabled person to be positioned in the bucket seat. The combined weight limit of user and passenger should not exceed 175kg / 27.5 stone

To hire either the Draisin Loader or Draisin Plus bikes you must contact the park in advance by calling 01724 720588. Please understand that there will be some occasions when the bikes won't be available to hire.

When you hire the bike you will have to fill in some paperwork so that we know that you, the person with the disability, the bike, and other park users will be kept safe.
